Sample Company Knowledge Base for RAG Testing

Company Contact Information

Company Name	Acme Analytics Solutions (Fictional)
Head Office	250 Innovation Avenue, Tech Park, Austin, TX 78701, USA
India Office	5th Floor, Orion Business Tower, Bengaluru, Karnataka 560103, India
Support Email	support@acmeanalytics.example
Sales Email	sales@acmeanalytics.example
HR Email	careers@acmeanalytics.example
General Contact	+1 (555) 210-4500
India Contact	+91 80 4000 5678
Website	https://www.acmeanalytics.example
Business Hours	Monday–Friday, 9:00 AM – 6:00 PM

About the Company

Acme Analytics Solutions is a fictional enterprise created solely for testing Retrieval Augmented Generation systems. The company develops AI powered software, workflow automation platforms, document intelligence products, analytics dashboards, and enterprise search solutions. It serves industries including healthcare, retail, manufacturing, logistics, banking, education, and insurance. The organization emphasizes reliability, transparency, scalability, customer success, and responsible AI. RAG Documentation

The RAG platform extracts text from PDFs, DOCX, HTML, Markdown, emails, and knowledge articles. Documents are cleaned, chunked with overlap, embedded, indexed in a vector database, and retrieved using hybrid search. Metadata includes title, department, author, language, version, creation date, last modified date, and access level. Responses include citations whenever possible. The RAG platform extracts text from PDFs, DOCX, HTML, Markdown, emails, and knowledge articles.
